New Varieties of Darwin and Cottage Tulips

Direct from Holland

MAY 1, 1947

Why. We bring you our Price List at this time because it is or soon will be Tulip Time. When Tulips are in bloom is the best time to make your selections of varieties for the coming season. If you order now you are almost sure of getting the varieties and sizes you want.

Our Firm. For the benefit of our new customers permit us to say that we have been growing bulbs commercially for more than twenty years. During this time we have learned much concerning the growing of quality bulbs. We have also learned much as to the most satisfactory and desirable varieties to grow. Our Old Customers come back to us year after year and the volume of our business has steadily increased. In offering you our bulbs we offer you the benefit of our years of experience.

Our Holland Bulbs are the best obtainable. They are grown by the firm of Driehuisen Brothers of Lisse, Holland. This old and reliable firm has been growing and marketing Tulip and Hyacinth bulbs for more than one hundred fifty years. Their business reputation and integrity are above reproach. Their bulbs are not to be surpassed. We offer you the advantages of their experience.

Economic Philosophy. The prices of our Holland Tulips are the same as last season because Holland prices have not been reduced. Our prices, however, are already materially lower than many other offerings.

We have taken the position at this time that prices should be reduced. We take this position in the face of the fact that our labor and general overhead expense is greater than at any previous time.

Hence we have reduced prices on the Domestic Tulips we grow believing that the increased sales will make up for the higher cost of production. Only by materially increased sales can prices be reduced at this time. We sincerely hope that you will see this matter as we see it. Your order NOW will prove the soundness of this philosophy.

Fall Prices. Our prices may be higher this Fall but they will not be lower.

GUARANTEE—All stock is guaranteed true to name and free of insect pests and disease. We further guarantee that with proper care and favorable weather our bulbs will give you splendid flowers next spring.

TERMS—You may order now, sending 25 percent of order in cash, and we will ship C.O.D. if not paid in full at shipping
